Objective of the CMA

1. Act as a change agent in creating an excellent manufacturing industry, by providing institutional leadership in the creating a economically viable sector, which in turn contributes to industrial and economical development of Curacao
2. Represent the intrests of local manufacturing industry when interacting the government (as a policy maker), the business community and consumers

Objective of the presentation

- Provide insight in our local manufacturing industry, its importance to our economy
- Shine a different light and perspective on international trade and the implication of trade policies for our local manufacturing industry

Discussion

Statement

Curaçao has insufficient eye for the disadvantages for our small Island in her quest for obtaining WTO membership...

Statement

The government should provide more protection for our local manufactures from non-local businesses importing goods into our Island...

Thank you for your attendance and
attention

&

We hope we can count on your help in
promoting our valuable Industry!
